Ages: 2-3

Which animal do you want to be

1 min

Parent tip: Start it off: miaow or growl. Your child will pick it up from there.

Main question: "Which animal do you want to be right now? Show me with your voice."

Listen: The sound is the answer; no word needed. Answer back as the same animal.

Sharing more?: "Then who am I? You choose for me."

Skills practised:

"Copying animal sounds removes the speech barrier completely: 'miaow' counts as a full answer. A child who doesn't speak in sentences yet is talking here as an equal."
