Ages: 2-3

Your favourite spot at home

1 min

Parent tip: This question is an invitation to get up and walk. Answering with your feet is easier for a two-year-old than answering with words.

Main question: "Where's your favourite spot at home? Take me there."

Listen: The spot may be an odd one - under the table, behind the armchair. Sit down there together, without judging it.

Sharing more?: "What's the best thing about it?"

Skills practised:

"'Where' is one of the first question words a child can handle, and it can be answered with your feet. And the spot they choose almost always says more about them than they could put into words."
