Ages: 6-8

What new thing did you learn today?

3 min

Main question: «Tell me ONE new thing you learned today. Something you didn't know yet this morning.»

If they don't know: «Did you try something new? Go somewhere new? Think about someone new?» Broaden the meaning of "learned."

If they open up: «Teach me that. After all, I don't know it either.»

What we practised:

«"One new fact a day" is a simple habit of curiosity. When the child also TEACHES the parent - they reinforce the knowledge, and you show that you're ready to learn. This redefines the hierarchy.»
